Officer Jensen:
One of our Commissioners lives on site at the rear of Central Plaza. She has brought to the attention of our Executive Director (who has mentioned the issue with me) of people who race through the alleyway at high rates of speed in the wee hours of the morning and various disturbances from the Bar off the alleyway. In addition, homeless individuals and dumpster divers are utilizing our trash enclosures as a toilet.

We are taking measures to beef up the camera systems and lock the trash enclosures with electronic FOBS. However, we would like to address the alleyway. We were thinking perhaps a FLOCK camera in the alleyway.

I look forward to walking the areas with you.

Thanks.
Sanford
